
The BJ Group Services

AssetMark is the only investment advisory firm that has an exclusive agreement with Bob Brinker, long considered an expert in identifying market trends. The BJ Group Services, co-founded in 1986 by Bob Brinker and acquired by AssetMark in 2000, offers investment solutions tailored to clients' personal objectives. Our goal is to provide clients with a disciplined investment approach targeted to participate in market gains during rising markets and preserve capital during market declines.

We accomplish this by using Brinker's proprietary strategy to tactically allocate assets among stocks, bonds, and cash, rather than blindly following conventional wisdom. We apply discipline to a proven investment strategy to eliminate the emotions created by market extremes.

THE BJ GROUP DIFFERENCE

The combined Brinker/AssetMark approach has been designed to further simplify the investment process and help investors navigate through the complex world of the financial markets.

Throughout our history, we have focused on providing robust investment management solutions for investors. AssetMark works with Your Private Client Group, Inc. ("Your PCG"), an independent registered investment advisor, to help investors access the BJ Group Services. Your PCG's dedicated investment professionals bring substantial industry experience and expertise to assist you in clearly identifying strategies for your financial needs and future objectives.

Built on a foundation of integrity and operational discipline, AssetMark and Your PCG work relentlessly to deliver the best solutions for you. We provide clients with service, expertise and guidance beyond what most individual investors can accomplish on their own.

At AssetMark and Your PCG, looking out for the investor is not just what we say – it's what we do.

When it comes to helping affluent investors reach their financial goals, we take a unique perspective: yours ▲
